

FORMAL COMPLAINT UNDER THE INFORMATION TECHNOLOGY ACT, 2000

PREPARED FOR SUBMISSION TO: NATIONAL CYBER CRIME REPORTING PORTAL (cybercrime.gov.in) & CYBER CRIME CELL

Case Reference: SE-2026-8482	Generated On: 2026-08-22 21:55:54 UTC+05:30
Case Title: string	Severity Assessment: STRING
Complainant / Victim: CONFIDENTIAL_COMPLAINANT (Protected Alias)	Zero-Trust Engine: Verified In-Browser SHA-256

1. SUGGESTED STATUTORY PROVISIONS & RELEVANT LEGAL SECTIONS (ADVISORY)

- Information Technology Act, 2000 — Section 66E: Punishment for violation of bodily privacy by intentionally capturing, publishing, or transmitting images of a private area without consent. - Information Technology Act, 2000 — Section 67: Punishment for publishing or transmitting obscene material in electronic form. - Information Technology Act, 2000 — Section 67A: Punishment for publishing or transmitting material containing sexually explicit acts or conduct in electronic form (Non-bailable, punishable with up to 5 years imprisonment). - Information Technology Act, 2000 — Section 66D: Punishment for cheating by personation by using computer resource (suggested for AI Deepfakes & Face Swaps). - IT Intermediary Rules, 2021 — Rule 3(2)(b): Mandates that hosting intermediaries must disable access to non-consensual intimate imagery within 24 hours of receipt of complaint. - Indian Penal Code (IPC) Sec 354C / Bharatiya Nyaya Sanhita (BNS) Sec 77: Offence of voyeurism and unauthorized dissemination.

2. ZERO-TRUST MULTI-MODEL FORENSIC SPECIFICATION SUMMARY

Content Safety (Independent)	SFW / Verified Non-Exploitative	Evaluated independently from manipulation models
AI Generation & Synthesis	High Confidence Spectral Analysis	Diffusion / GAN high-frequency boundary patterns
Digital Manipulation (ELA)	Boundary Inconsistency Isolated	Local compression error level anomalies
Deepfake / Biometric Risk	High Probability Impersonation	Facial boundary warping & seam blending identified
Composite Authenticity Index	Low Authenticity (High Synthetic Weight)	Multi-model probabilistic veracity indicator

3. STATEMENT OF FACTS & INCIDENT SUMMARY

The complainant reports the unauthorized, non-consensual creation, storage, or public dissemination of private intimate media. The content was processed using SentinEx-AI's Zero-Trust client-side engine (ensuring raw media was never transmitted over unsecured networks). Perceptual fingerprinting and open-web indexing have identified 0 distinct instance(s) of potential dissemination across online file hosts, forums, or mirror sites. The dissemination constitutes a severe violation of the victim's fundamental right to bodily privacy under Article 21 of the Constitution of India and punishable offences under the IT Act.

4. PRESERVED DIGITAL EVIDENCE & DISSEMINATION LOG

#	Target URL / Host	Perceptual Hash (pHash)	Integrity SHA-256 Proof	Discovered
1	Case Record Registered (Pending Discovered Matches)	N/A	Verified	2026-08-22

4. PRAYER & RELIEF SOUGHT

WHEREFORE, IT IS RESPECTFULLY PRAYED THAT:

- A. An immediate First Information Report (FIR) be registered under Sections 66E, 67, and 67A of the IT Act, 2000, and Section 354C IPC.
- B. Statutory Emergency Takedown Notices be issued to relevant intermediary platforms and hosting providers under Rule 3(2)(b) of the IT Rules 2021 for **immediate removal within 24 hours**.
- C. Directives be issued to concerned domain registrars and internet service providers (ISPs) to preserve IP access logs, upload timestamps, and registrar records under Section 91 of the Code of Criminal Procedure / Section 94 BNSS.
- D. Strict penal action be initiated against the unauthorized distributor(s) and creators.

CONFIDENTIALITY & LEGAL DISCLAIMER: This automated cybercrime complaint package was prepared with the assistance of SentinEx-AI Privacy-First Platform. Evidence hashes are mathematically generated on-device. This document serves as a structured draft for formal submission to Law Enforcement Agencies (LEAs) and NCRP.
